

K-LOVE radio is a wonderful service to our local community, allowing listeners to learn about community events sponsored by area churches. It is also the first station I hear to announce local Amber Alerts- even before local stations. If K-LOVE radio were to be discontinued in our community there would not be any other station to fill its place. No local stations provide the same music or format (non-profit no commercial), and no other station allows the local churches and ministries, and colleges to advertise their functions free of charge. Continuing to broadcast K-LOVE is in the public's best interest.
